

Eric Hendershot

Full-Stack Developer

ericolebusiness@gmail.com

Website: erichendershot.com

SUMMARY

A junior full-stack developer with an AS in Computer Science seeking to develop more extensive experience working at the professional level. Excellent understanding and proficiency of technologies for effective website deployment, including JavaScript, Python, and SQL. Prepared to contribute effectively to dynamic development teams and create impactful solutions.

EXPERIENCE

Gembah, Texas — Data Analyst Intern

October 2021 - December 2022

Designed dashboards in Tableau to assist other departments with quick access to insights about company logistics and sales data. Maintained databases using Data Build Tools and queried data using BigQuery.

Dynasty Sports and Entertainment, Florida — QA Tester

October 2018 - March 2019

Tested system modifications to ensure software met all standards and guidelines in preparation for implementation. Recorded steps to reproduce issues and effectively communicated procedures to team members, resulting in an increase in productivity.

PROJECTS

RIOT Games API request

Utilized the Riot Games API and Python's Riotwatcher wrapper to extract League of Legends player champion mastery data, transforming it into a Pandas dataframe for analysis and record-keeping.

Personal website

Created a personal website using HTML and Bootstrap to showcase projects and skills, hosted on GitHub pages and using Google Domains.

BigQuery Data Visualization

Extracted and reformatted data from "Project Sunroof" via BigQuery, filtered irrelevant regional data in Google Sheets, then visualized solar energy potential for each state using Tableau.

EDUCATION

Associate in Science in Computer Science

Ocean County College, Toms River, NJ

2019 - 2021

Google Data Analytics Professional Certificate

Coursera

December 2021

Devshopes Full-Stack Web Academy

Devshopes

April 2023

SKILLS

HTML/CSS
